
Ismael Tavares

Full-stack software engineer with over 3 years of experience

Porto Alegre, Brazil | +55 51 985047712 | ismael.rodino@hotmail.com | [Portfólio](#) | [Github](#) | [LinkedIn](#)

Profile

Hey! I'm a Brazilian who is passionate about building high-impact, well-performing user experiences. I believe that work is a big portion of my day, so I try to make the best out of it for me and my colleagues. To achieve that I focus on empathy during conversations and try to deliver something I'm happy with.

Skills

- Next.js
- Node.js
- React.js
- Jest
- SQL
- Typescript
- Vue.js

Background

SOFTWARE ENGINEER | 2023 - ongoing

Alex Rohleder LTDA - Trondheim, Norway

- Maintenance and migration of a legacy create-react-app system to Next.js;
- Implemented translations with a compatibility layer between CRA and Next.js;
- Resolved performance and setup E2e, unit, snapshot tests;
- Configured, centralized and managed the sending of emails;

SOFTWARE ENGINEER | 2022 - 2023

Speedcast - Virginia, USA

- Converted large amounts of data into Excel (csv and xlsx);
- Part of a global and multicultural team
- Built the UI and UX from scratch for the company's new platform

SOFTWARE ENGINEER | 2021 - 2022

Switch App - Vitória, Brasil

- Contributed significantly to the discussion of ideas in daily meetings;
- Significantly improved the accessibility of your system, e.g. responsiveness, UX, loading;
- Updated several legacy system libraries;

SOFTWARE ENGINEER | 2021 - 2021

Lucalto - Oslo, Norway

- I developed my skills in a production environment, using next.js and typescript
- I honed my skills in independent problem-solving and information retrieval
