Background

SOFTWARE ENGINEER | 08/2023

Properate - Norway

- Currently employed at Properate, a building management platform.
- Tasked with the responsibility of introducing new features to the current system while concurrently developing a new version of the platform.
- Additionally responsible for the maintenance and updates of the legacy system.
- Proficient in the use of Next.js and Firebase as key components of the technology stack.
- Overcame challenges such as implementing translation functionality within the platform, ensuring the libraries were up to date and working with legacy code.

SOFTWARE ENGINEER | 02/2022 - 04/2023

Speedcast

- Global development team specializing in React and Vue.js for the Compass 2.0 platform.
- Contributions included the creation of remarkable visual features using ArcGIS, such as a globe with satellites and antennas.
- Responsible for enhancing pages, components, and functionalities.
- Data management, including the implementation of export functionality for CSV and XLSX formats.

SOFTWARE ENGINEER | 10/2021 - 02/2022

Switch App - Vitória, Brasil

- Member of an agile team comprising five members.
- Focused on the maintenance and development of the platform connecting establishments with self-employed professionals.
- Made significant contributions in discussions and gained expertise in integrating Node.js and React.js.

SOFTWARE ENGINEER | 05/2021 – 09/2021

Lucalto - Oslo, Norway

- Part-time remote position at Lucalto, a technology company based in Norway.
- Key role as a Junior Software Engineer specializing in React JS and Next.JS.
- Primary responsibilities:
- Collaborative work within an Agile framework to efficiently deliver software solutions.
- Translation of designs into functional web pages using TypeScript, HTML, and Tailwind CSS.
- Leveraging Next.JS for the development of robust and scalable web applications.
- Adherence to best coding practices to uphold code quality and enhance collaboration within the team.
- Emphasis on continuous learning, adaptability, and meticulous attention to detail to improve problem-solving skills and technical acumen.
